

GARRETT AIRRESEARCH 250 PPM (TWIN TURBINE)

SKU: 0225

Categories: [Air start units](#)

PRODUCT DESCRIPTION

This air start unit by Garrett Airresearch is particularly well suited for larger aircraft. It delivers the steady flow of air required to be able to start the engines. With dual connections and a combined capacity of 250ppm, this air start unit performs quickly and adequately.

We currently have one new machine in stock.
