

SCHOPF F396

Category: [Aircraft pushback tractors](#)

SKU: 0669

As one of the most powerful aircraft pushback tractors on the market, the Schopf F-396 is a very good choice for towing and pushing widebody aircraft like A330, A340, B747 and B777.

It is fitted with a strong and reliable powershift transmission produced by the manufacturer ZF and the high quality axles of the Kessler brand with both helping to provide a smooth acceleration and very accurate control in operation on heavy commercial aircraft.

By driver cockpits at front and rear of the tractor a very safe operation is guaranteed during forward and reverse drive.

PRODUCT INFORMATION

Manufacturer

Schopf

Model	F-396
