

## SOVAM CT6 ON NISSAN

**Category:** [Ambulift units](#)

**SKU:** 0664

With its "half cabin" design, the Sovam CT6 Ambulift / PRM Service Vehicle covers the full boarding height range from turboprop regional aircraft and narrow-bodies up to widebody passenger aircraft.

It is fitted with a telescopic adjustable boarding bridge at front and with an hydraulic tail lift at the rear.

Mounted on a Nissan truck chassis it is a very maneuverable and easy to maintain ambulance highlift /PRM vehicle.
